LAST WEEK'S TORNADO.

**Death and Devastation Marks the Path of the Tornado.**  
 LONDON, Ky., March 25.—A terrific cyclone passed near London, about 10 o'clock this afternoon, carrying death and destruction in its train, especially at Pittsburg, where it was the worst. At this place, the new Market street, the framing of which had just been completed, and a portion of the weather-banding put on, was blown to the ground and damaged about \$100. Several other pieces of property sustained slight damages. At Pittsburg the loss was much heavier than here.

John Hallman, a broker on a freight train, was blown from a freight box and carried about fifty feet, lying on his back in a creek and breaking his neck, his death instantaneous. Mr. Hallman was about thirty years old, and leaves a widow and two children at Livingston Station, Ky.

A little child, in which a Mrs. Hargrove was living, was blown down, instantly killing Mrs. Hargrove and her two little children.

The following persons are thought to be mortally wounded: Col. C. W. Stringer, both legs broken and cut in the head. Mrs. C. W. Stringer, hip mangled. Robert Biddings, spinal column broken and cut in the head. Mrs. Sallie Goff, cut in the head. James Warren, two ribs broken and wounded in the head.

The estimated damage to property from up to July \$10,000.

**CHRISTIAN, Mar. 26.**—The New Journal of this morning says: A cyclone of great power and destructiveness passed a portion of Harrison county, Kentucky, yesterday afternoon, sweeping everything before it like a reaper moving a swath. The track of the tornado seemed to have been comparatively narrow, and crossed the railroad about at Boyd's Station, fifty-one miles up the Kentucky Central railroad, tearing trees and houses and barns and fences in the path as they went, many feathers flying about in a sportive way. The telegraph lines along the railroad were prostrated, but no other material damage is reported. The track of the storm, however, is shown with weeks of months. A church and a school-house are reported as being crushed and scattered as if blown up with dynamite.

A number of people are said to have been injured and several killed. In the vicinity of Boyd's many distressing cases are reported, and the condition and extent of the damage is so extensive that the authorities are endeavoring to destroy the evidence, and their materials and contents scattered like chaff from the passing down of the cyclone, which swept the shelter of dry ravines, and some are actually said to have caught into their walls to escape the threatened destruction. It was late in the afternoon when the cyclone made its appearance, and amid the terror and confusion night came on, so that it is impossible to get details of the loss, but those who were in the storm say all they can to shelter and help their less fortunate neighbors.

**LANSING, Ky., March 25.**—A terrible storm, reaching here tonight at a terrific rate, has been the northern portion of Harrison county, traveling from east to west, has been totally destroyed. A large number of people have been killed and a large number of people have been injured. The cyclone passed near the town of Columbus and about thirty miles from here, and the damage is so extensive that the authorities are endeavoring to destroy the evidence, and their materials and contents scattered like chaff from the passing down of the cyclone, which swept the shelter of dry ravines, and some are actually said to have caught into their walls to escape the threatened destruction. and broke like, inflicting a large number of people. The suffering is great, and the majority of the people here poor. As the cyclone is not estimated. Between fifty and seventy families are homeless and destitute, and if ever any place needed assistance these villages do. The loss in this country will aggregate nearly half a million, and legislative aid will probably be required to restore anything like the former condition of the people.

**SEVEN, Ky., March 25.**—A terrific cyclone, water-spout, accompanied by a terrible hail, burst over our town, flooding the rear of all the buildings standing on the ground. All residents in the flats were surrounded by water, and many of the first floors submerged six or eight inches. For a few minutes the scene was frightful. At precisely 3 o'clock the storm, with the exception of hail in the rear, was dissipated. The town being surrounded by hills, sustained but little damage from the wind, though the storm is feared for the country.

**FAIRMONT, Ky., March 25.**—A fearful cyclone passed through the woods just south of this town, on the Kentucky Central railroad, at 2 o'clock yesterday afternoon. The track of the cyclone was half a mile wide from east to west, upturning trees and everything in its path. Many trees were blown across the railroad track, and there are being cleared away by work men. So far no lives are reported lost and no dwellings destroyed.

**BEWLEYVILLE.**  
 The farmers in this vicinity are lucky a work.

**Bewleyville is also lucky.** It is certainly a very good thing. She has two flourishing schools. Hereafter we have had a hard time to get one. Our teachers are Prof. W. H. Bell and R. E. West. Mr. Bell (former of Harbottleburg), who is a graduate of the Commercial College of Kentucky, Ind., has given me satisfaction so far, and it is hoped he will continue to do so, so that there has been some dissatisfaction in the district.

One of the old "landmarks" in the person of Mr. J. M. Harbottle, has sold his farm to W. N. Drury, and is going to move to Missouri, from which state he has just returned. He gives a glowing description of the country in which he expects to locate.

A. F. Fouts is certainly the best in getting subscribers to the Farmer's Home Journal. I think he will finally get off with somebody's help.

Rev. J. W. Albright has succeeded in organizing a Baptist church at Big Spring, and will erect a house of worship there soon as he can raise the few hundred dollars. The prospect for the method fund-raising is very flattering, as he has met with great success in his efforts at Big Spring. Mr. Meador donated the lot on which to erect the building.

There have been eighteen or nineteen deaths in Chester and vicinity within the last two months. It is really alarming. Physicians say the really serious is an epidemic form of malarial fever.

W. Williams has invested a considerable money in fine stock, consisting of pedigree horses and other stock. He is an energetic business man, and it is hoped soon he can raise his first class horse farm and rear first class stock in this neighborhood. You can see his "Lioness" Co.

He is a dairy and his farm is full. David C. Adair, formerly of the firm of McPherson & Co., has returned from Louisville, where he purchased a large stock of wagon, plow, and heavy material, prepared to carry on a first class horse and wagon shop. Davies is an A1 work man, and means business.

F. W. Peyton is our constable in this district. He is industrious and well-versed in his duties, and has been very successful in his efforts to make many first class horse visitors in Meade county. Frank says G. E. Chick formerly had a fine car to make money, and now he has a first class horse for money.

Last week was "big" at the place, in which Milton Board and W. K. Barnes figured pretty lively. They had two or three contested cases, and court lasted two days.

Mr. A. J. Williams has sold his one third interest in the "Bain-Spring" farm to A. C. Cone, and has received a position on the Hill & Co. and is now traveling in Texas.

Mr. Editor, we are now willing to accept all the chances we have or may ever have of a railroad for a half a mile in a tunnel from Hardinsburg to Moulthrop.

For a road to a temple? Here we have a second invitation to work the road next Friday and Saturday. I must rest.

and is now ready to issue out pills to any person who may get sick. Dr. Bell is a good doctor, and we'll bet our old shag and rat terrier pug against a good one of either bell's mark in the world. We understand he is going to leave here and take an interest in the same with his brother, B. A. Parks, said drugs to the business, and practice medicine. We welcome you, Bell, and hope you will be successful in business.

All the sick have about recovered, and business is good in all branches. Canton.

The children of Lewis Hamilton, deceased, of Hardin county, have the following very early names: London, Judge, John, William, Heloise Fashon, Eversue Belle, China Figure and Southern Girl.

It is said the "skully law" passed by the present legislature will cost the state \$200,000 per annum.

Kalamazoo county will celebrate its centennial this year. It was established in 1794.

The new hard-boiled hogs go very well with the old hard-boiled ones.
